Efficient. Ergonomic. Versatile.

The ORVOS exam systems are engineered with angled countertop cutouts that position the doctor within a 90° radius of critical controls while maintaining strong patient interaction. The 90° of efficiency increases “doctor to patient” face time with direct access to chair and stand controls along with the patient’s data.

- + Patient-doctor interaction advantage (never having to turn your back to the patient).
- + Decreases muscle fatigue and neck strain moving from patient to computer and instruments.
- + Instant access to trial lenses that are now within arm’s reach.
- + Smart Office - Critical supplies such as drops, tissues, swabs and gloves are at your fingertips.
- + Direct access to vital patient history (EMR).
- + Optional articulating computer arm enables you to share information with patient by simply sharing your monitor.
- + Promote products and services.
- + Made in our state-of-the-art manufacturing facility in the U.S.A.

**MORE EFFICIENT EXAM =
MORE THROUGHPUT =
INCREASED REVENUE**

- + **EVERYTHING YOU NEED WITHIN 90° EASILY ACCESS YOUR WORKSTATION AND REACH YOUR PATIENT FOR A MORE EFFICIENT EXAMINATION (NEVER TURN YOUR BACK TO THE PATIENT)**
- 01 IMMEDIATE ACCESS TO SCRUB HANDS PRIOR TO PERFORMING EXAMS.
- 02 EYEWEAR SAMPLES AND PRODUCT MESSAGING TO PROMOTE OPTICAL SALES.
- 03 ACCESS TO CRITICAL MEDICAL SUPPLIES (DROPS, SWABS, TISSUES).
- 04 SMART OFFICE ALLOWS FOR A CLUTTER FREE DESKTOP.
- 05 ADJUSTABLE COMPUTER ARM ENABLES YOU TO SHARE INFORMATION WITH THE PATIENT.
- 06 EASY ACCESS TO TRIAL LENS DRAWER.
- 07 PROPER STOOL FOR COMFORT AND PRODUCTIVITY.
- + PREFERRED LAMINATES FROM FORMICA, WILSONART, NEVAMAR + PIONITE.
- + OPTIONAL SOLID SURFACE COUNTERTOPS FROM CORIAN OR QUARTZ.

Orvos Concierge.

Eye Designs Concierge Service offers a unique alternative for customers seeking customization. Our team of engineers, designers, and manufacturing experts collaborates directly with you to identify the best solutions for your specific needs and preferences. We will create tailored designs and a detailed action plan to produce one-of-a-kind products specifically crafted for you.

Call to speak with one of our ophthalmic product designers to discuss the details of your customized exam consoles. From just a few desks to over hundred, we understand the process to get this right. We work with a wide range of commercial grade materials, hardware, finishes and technologies to create the desk that will help improve your efficiency and comfort to help you deliver the optimal patient experience.

No one delivers more custom exam room solutions than Eye Designs.

Ascend Exam.

Ascend Exam utilizes a smooth motorized frame to elevate and lower the exam desk, allowing you to sit or stand during patient examinations. The desk incorporates an angled work surface, trial lens drawer, wire management and a CPU mounting bracket, all to create a variable height workstation you can adjust throughout the day. The ability to raise the trial lens drawer to the patient eye level increases exam efficiency. Enhanced with our Smart Office panels, the Ascend Exam system is the exam lane of the future.

OPTIONS INCLUDE:

- + MULTIPLE CONFIGURATIONS + COLOR COMBINATIONS
- + SINK + SIDE STORAGE AVAILABLE
- + SCRIBE/TECH STATION AVAILABLE
- + REDUCE FATIGUE
- 01 EASILY ADJUST THE HEIGHT OF YOUR DESK WITH THE PUSH OF A BUTTON
- 02 BUILT-IN TRIAL LENS DRAWER THAT TRAVELS WITH DESK

Core.

OFFICE SYSTEMS

At the core of all practices are rooms that are designed for specific purposes outside of patient exams and eyewear sales. These spaces are designated as specific areas for staff to operate within an eye care practice. Each room's requirements can be vastly different and the need for efficient and ergonomically designed cabinetry is essential. Eye Designs' CORE and CORE Premium Cabinetry lines are a selection of back office case goods that fulfill the unique demands of these specific areas.

Designed for optical labs, business offices, tech stations, staff lounges and more.

Various combinations of CORE can be configured to satisfy specific job functions and workspace needs. CORE was engineered based on operational tasks, storage and standard room dimensions. You have a large selection of laminate and countertop choices. CORE Premium Cabinets are also manufactured with satin nickel leg supports for a more elegant look.

Designed with functionality and efficiency in mind, CORE Cabinetry will create a space that is manufactured to last, is flexible to your needs and looks great.

Finish your office!

Executive Office.

The right work environment can provide the proper foundation for endless productivity. Sometimes, it is essential to retreat to the quiet sanctuary of a private office to get away from the daily grind or to focus on strategic issues for your practice.

Our collection of custom office desks, storage cabinets, "Smart Office" wall organization systems and ergonomic chairs feature clean sophisticated designs for an uninterrupted and productive work space.

They are available in custom sizes and can be modified to your liking and specifications. Also, our team of designers will work with you, one on one, to assess your needs and create the best solution for your executive office.

Business Office.

Business offices need to function efficiently. They can be the hub of the office and handle functions such as billing, accounting, insurance and more. CORE business office cabinetry and workstations give you the ability to make this space work for you.

From a simple one-person station to a multi-personnel operational hub, CORE can build to suit your needs.

Take advantage of our CORE standard configurations or opt for our CORE Premium designs to maximize the performance of your business office work areas. Either way, the professionals at Eye Designs have thought of almost everything in terms of storage and function.

The Ophthalmic Office Design Experts.

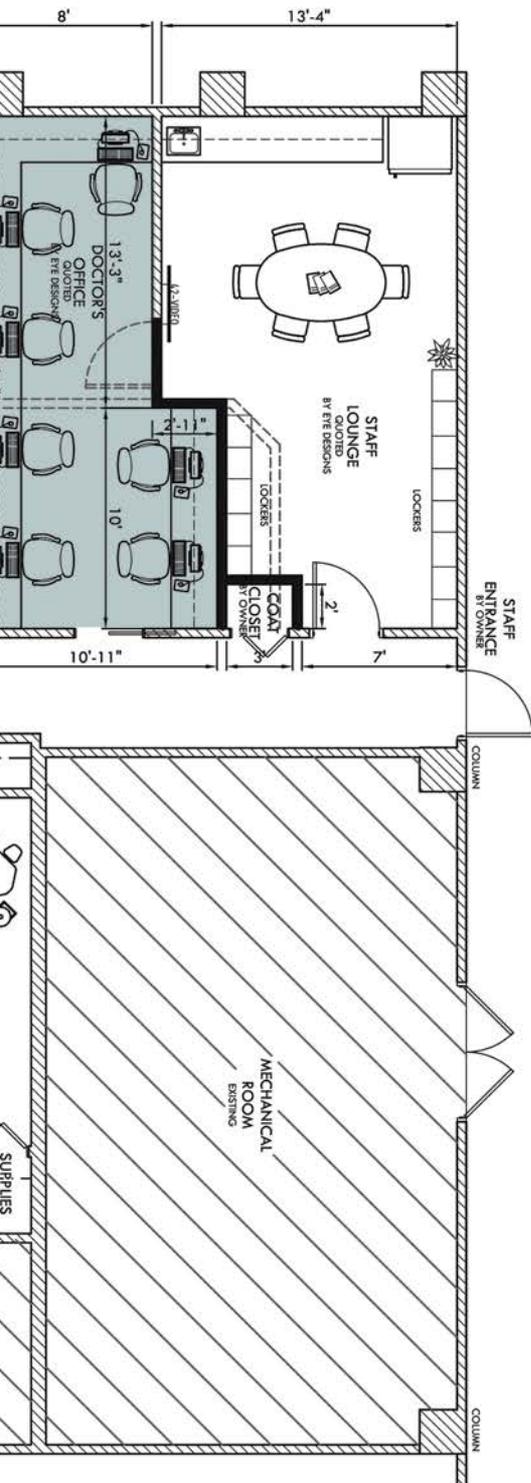

NO ONE DESIGNS MORE OFFICES THAN EYE DESIGNS.

The Eye Designs Group offers many options for ophthalmic office design - from preparing detailed room layouts for the exam and clinical areas to the complete office design.

We have a team of space planners and designers with over 35 years of industry experience that specialize in ophthalmic office design. We understand all of the areas of an ECP's practice. We streamline traffic flow, improve efficiencies and enhance sight-lines to deliver a superior patient experience. Whether your project is built from the ground up or is a renovation, we take into account the uniqueness of your space and any structural elements to ensure maximum patient efficiency and through-put.

In short, we offer expert ophthalmic space planning in our "Phase I" design service, then follow through to our detailed "Phase II" service that include pre-construction drawings that encompass the lighting and ceiling design, electrical specifications plus comprehensive interior elevations that help bring your vision to reality. We then move to the "Phase III, IV and V" finishing services which include commercial interior design as well as the design and fabrication of all of your custom cabinetry throughout the entire office. From the clinical areas such as testing rooms, exam rooms, minor surgery and med spa suites, to the contact lens areas then to the retail optical, we assist with the design of the entire office - patient areas to non-patient areas; clinical areas to retail areas.

The Eye Designs Group provides you with the comprehensive solutions that you need to maximize your practice's performance.

View our new "Design Services" brochure or contact one of our representatives for a detailed explanation of how we can assist you with the design of your new office.

Exam + Optical Art.

The Eye Designs Group is proud to now offer Optical Art! The first and only collection of artwork created specifically for the optical industry. What better way to decorate your practice than with artwork inspired by and created for the optical industry. Choose from over 200 unique pieces that were created using various artistic techniques including painting, digital painting, photo manipulation, line art and more. We have artwork for any area of your practice including waiting, exam, retail and everywhere in between.

You may select to have your artwork produced on high quality archival matte stock, printed with fade resistant ink and delivered cut and ready to frame or printed on mounted canvas. Available in a number of standard sizes, as well as custom sizes, there is sure to be something to fill that wall space you just don't know what to do with. Browse our current catalog of available prints at OpticalDisplays.com. New pieces are added to the collection frequently.
